BIO GAS PLANT

Capacity: 1.5 cum Plant

CONTENT

1. DESIGN BASIS
2. TECHNICAL NOTE
3. FIBER COATING SPECIFICATIONS
4. ADVANTAGES OF KVIC MODEL
5. LIST OF EXCLUSIONS

The Waste Treatment Plant has been designed based on the following parameters.

Waste generated from : College
Type of waste: Food waste
Quantity of waste generated : 5 kg

TECHNICAL DETAILS

1	Process	Anaerobic Digester	Anaerobic Digester
2	Reactor	Vertical Reactor Portable made	Vertical Reactor Portable made
3	Reactor Type	Double Partitioned	Double Partitioned
4	Design	Water Sealed Jacketed Column	Water Sealed Jacketed Column
5	Extraction System	Flooding Type Automatic With Respect To Fresh Feed	Flooding Type Automatic With Respect To Fresh Feed
6	Capacity	1.5 Cum	1.5 Cum
7	Treatment Capacity per Day	5 kg	5 kg
8	Gas Production	0.7 kg Of Equivalent LPG GAS	0.7 kg Of Equivalent LPG GAS
9	Structure	Digester above ground or partially below ground	Digester above ground or partially below ground
10	Holder Movements	Horizontal Type	Horizontal Type
11	Feed	Food waste	Food waste

PRINCETON COLLEGE OF PHARMACY

The plant can treat 5 kg Food waste per day with a capacity of 1.5 m³. The main part of the biogas plant is digester, which has got two chambers. One is solid waste chamber and the other is liquid waste chamber. The waste directly goes to the solid waste chamber inside the digester. In the first chamber food waste remains for 70 to 80 days, then it converted in to semi liquid form. After that it moves to thesecond chamber where it remains for 20 to 25days.Then it purely converted in to slightly viscous blackish liquid which automatically pumps out from the slurry pipe.

Fiber Coating specification

Polyester ISO Resin

1. Polyester ISO Resin Gel Coat
2. GLASS Fiber mat 600E
3. G.I pipe with Gas holder B-Class 3” pipe

Advantages of KVIC Model

- Stable under large load variations
- Tolerant to disturbances
- Recovery very quickly after major upsets
- No Clogging of reactors
- No risk of Sludge Bulking
- Excellent Strength to retain high pressure of Gas
- Expert Fabrication
- Customized Design & Fabrication
- Long Life
- Cost Effective
- Easy Maintenance
