Subject: Sponsorship for funded project . Dated 08/08/2019

Dear Sir,

Best wishes from Princeton College of Pharmacy

Princeton College of Pharmacy was established in the year 2007. PCOP is approved by AICTE New Delhi, affiliated to JNTU, Hyderabad and accredited by National Board of Accreditation (NBA). PCOP is an ISO 9001:2008 certified institution. The faculties of various departments are actively pursuing research in their respective technical departments under R&D wing of PCOP. Dr. A MADHUSUDHAN REDDY, Professor, Department of PHARMACOGNOSY, is the principal investigator for this proposed work.

We request your kind cooperation and financial aid of INR. 2,00,000 (Two lakhs Rupees Only) in the “ **Evaluation of Neuroprotective and Anti Alzheimer's Effects of Some Indian Medicinal Plants**”. Herewith we have enclosed the budget proposal for the project. Our faculty will contact you in person along with this letter.

Princeton College of Pharmacy is expecting positive response from you.

Budget Proposal for “ Evaluation of Neuroprotective and Anti Alzheimer's Effects of Some Indian Medicinal Plants”.**Introduction:**

The relevance of herbal shrubbery to counteractive incriminate in phytotherapy is solitary of the customary performs in the humanity. The various pharmacologically active secondary metabolites obtained from the different plant sources have significant neuro protective activity against the neuro degenerative disorders. Neurodegenerative disorder can be described as an irreversible gradual loss of neuronal cell which is essential to perform the normal brain functions and the continuous loss of neuronal cell ultimately leads to brain death. Alzheimer's disease is defined as an irreversible neurological disorder which impairs the cognitive and intellectual function of human brain.

Scope of work

In this project, The fresh leaves of *Zagalatifolia*(ZL) and *Dalbergiadiphaca*(DD) were collected from the local flora in Vellore district, Tamil Nadu India for the Neuro protective activity of Indian medicinal plants in Alzheimer's disease. The doses (200 mg/kg and 400 mg/kg) of ethanolic extracts of ZL and DD were used for the Neuroprotective activity of Indian medicinal plants in Alzheimer's disease. The tested doses at 200 mg/kg and 400 mg/kg of ethanolic extracts of DD showed significant neuroprotective behavioral study compared to the ethanolic extracts of ZL. These extracts bring back the declined level of brain neurotransmitters like dopamine, glutamate and antioxidant enzymes like catalase, glutathione peroxidase and glutathione reductase. *In vitro* neuroprotective activity for ethanolic leaves extracts of *Zagalatifolia*(ZL) and *Dalbergiadiphaca*(DD) were performed on SH-SY5Y cells. The ethanolic leaves extracts of *Dalbergiadiphaca*(DD) showed significant neuroprotective activity than the ethanolic leaves extracts of ZL.

The phytochemicals isolated first time from the ethanolic leaves extracts of DD showed significant neuroprotective activity. The copper oxide nanoparticles synthesized from the ethanolic leaves extracts of DD and ZL also showed very good neuroprotective activity than the ethanolic leaves extracts of DD and ZL. This study suggests that ethanol leaves extracts of *Dalbergiadiphaca* have significant neuroprotective effect in the neurotoxicity induced Alzheimer's disease model.

Professional Fees

Our Lump Sum professional fees for carrying out the above the scope of work will be INR.2,00,000 (Two lakhs Rupees only)

1.0 Terms of Payment

S. No.	Mode of payment	Amount (INR)
1.	Term-1 (Work order & Analysis)	60,000
2.	Term-2 (Modeling and Design)	60,000
3.	Term-3 (Fabrication, Machining and Testing and Delivery)	80,000
	Total	2,00,000

Kindly acknowledge the receipt of this proposal and looking forward to get the work order.
