## Activity Report

Name of the Activity	Pharmacy Analytical Aided	
Type of Activity	Add on /Certificate program	
Date and Time of Activity	08/02/2021 to 13/02/2021	09.30 am to 04.00 pm
Details of Participants	69	
Organizing Dept./Support System	Pharmacy	
Resource Person	Dr. Ampati Srinivas	
Description	<p>The growth in advancement and up-gradation of technology in machinery has led to manufacture all kinds of Pharmaceutical Machinery in India. As low technology offerings have been faster in the initial stage, the Indian machinery today is considered as one of the value-added engineering's with the integration of new technologies. More than 350 facilities in India's pharmaceutical-machine manufacturing industry are present. The Indian pharmaceutical machinery industry is currently catering to the segments of tableting and capsulation, powder processing, material handling, R&amp;D equipment and instrumentation, coating, bulk drug plant installation etc. The SME sector facilitates around 800 pharmaceutical machine manufacturing and allied utility service units. Majority of these units undertake the supply of custom-made machineries using the location advantage of buyers and job works. The lecture started around 9:30 am and ended around 4:00 PM. The lecture was received with admiration by the students and they also found the slides appropriate. The event ended with honorarium to the guests and vote of thanks.</p>
