Name of the Activity	Drug Medical Writing
Type of Activity	Add on /Certificate program
Date and Time of Activity	18/01/2022 to 23/01/2022 09.30 am to 04.00 pm
Details of Participants	75
Organizing Dept./Support System	Pharmacy
Resorce Person	Dr.Ampati Srinivas, Professor Unity college of pharmacy, Yadadri Bhongir
Description	A medical writer, also referred to as medical communicator, is a person who applies the principles of clinical research in developing clinical trial documents that effectively and clearly describe research results, product use, and other medical information. The medical writer develops any of the five modules of the Common Technical Document. The medical writers also ensure that their documents comply with regulatory, journal, or other guidelines in terms of content, format, and structure. The lecture started around 9:30 am and ended around 4:00 PM. The lecture was received with admiration by the students and they also found the slides appropriate. The event ended with honorarium to the guests and vote of thanks.

## Activity Report

Name of the Activity	Pharmaceutical Sales Representative	
Type of Activity	Add on /Certificate program	
Date and Time of Activity	02/02/2022 to 09/02/2022	09.30 am to 04.00 pm
Details of Participants	78	
Organizing Dept./Support System	Pharmacy	
Resource Person	Dr. ANDE SAILAJA	
Description	<p>Pharmaceutical sales representatives (formerly detailmen) are salespeople employed by pharmaceutical companies to persuade doctors to prescribe their drugs to patients. Drug companies in the United States spend ~\$5 billion annually sending representatives to doctors, to provide product information, answer questions on product use, and deliver product samples. These interactions are governed according to limits established by the Code on Interactions with Health Care Professionals, created by the Pharmaceutical Research and Manufacturers of America (PhRMA). This code came into practice in 2002 and has since been updated to help define ethical interactions between health care professionals and the pharmaceutical companies. The lecture started around 9:30 am and ended around 4:00 PM. The lecture was received with admiration by the students and they also found the slides appropriate. The event ended with honorarium to the guests and vote of thanks.</p>

## Activity report

Name of the Activity	Clinical Research	
Type of Activity	Add on /Certificate program	
Date and Time of Activity	03-07-2018 to 10-07-2018	09.30 am to 04.00 pm
Details of Participants	72	
Organizing Dept./Support System	Pharmacy	
Resorce Person	Dr. V. MAHENDER	
Description	<p>Regulatory affairs (RA) professionals play critical roles in a pharmaceutical industry because it is concern about the healthcare product lifecycle, it provide strategic, tactical and operational direction and support for working within regulations to expedite the development and delivery of safe and effective healthcare products to individuals around the world. The role of regulatory affairs is to develop and execute a regulatory strategy to ensure that the collective efforts of the drug development team results in a product that is approvable by global regulators but is also differentiated from the competition in some way and also is to ensure that the company's activities, from non-clinical research through to advertising and promotion, are conducted in accordance with the regulations and guidelines established by regulatory authorities. The lecture started around 9:30 am and ended around 4:00 PM. The lecture was received with admiration by the students and they also found the slides appropriate. The event ended with honorarium to the guests and vote of thanks.</p>

## Activity Report

Name of the Activity	Pharmacy Analytical Instrument	
Type of Activity	Add on /Certificate program	
Date and Time of Activity	02/04/2022 to 09/04/2022	09.30 am to 04.00 pm
Details of Participants	79	
Organizing Dept./Support System	Pharmacy	
Resource Person	Dr. Ampati Srinivas	
Description	<p>The growth in advancement and up-gradation of technology in machinery has led to manufacture all kinds of Pharmaceutical Machinery in India. As low technology offerings have been faster in the initial stage, the Indian machinery today is considered as one of the value-added engineering's with the integration of new technologies. More than 350 facilities in India's pharmaceutical-machine manufacturing industry are present. The Indian pharmaceutical machinery industry is currently catering to the segments of tableting and capsulation, powder processing, material handling, R&amp;D equipment and instrumentation, coating, bulk drug plant installation etc. The SME sector facilitates around 800 pharmaceutical machine manufacturing and allied utility service units. Majority of these units undertake the supply of custom-made machineries using the location advantage of buyers and job works. The lecture started around 9:30 am and ended around 4:00 PM. The lecture was received with admiration by the students and they also found the slides appropriate. The event ended with honorarium to the guests and vote of thanks.</p>

Name of the Activity	Drug Regulatory Affairs Chemist	
Type of Activity	Add on /Certificate program	
Date and Time of Activity	03-005-2022 to 10-05-2022	09.30 am to 04.00 pm
Details of Participants	74	
Organizing Dept./Support System	Pharmacy	
Resource Person	Dr Ampati Srinivas	
Description	<p>Regulatory affairs (RA) professionals play critical roles in a pharmaceutical industry because it is concern about the healthcare product lifecycle, it provide strategic, tactical and operational direction and support for working within regulations to expedite the development and delivery of safe and effective healthcare products to individuals around the world. The role of regulatory affairs is to develop and execute a regulatory strategy to ensure that the collective efforts of the drug development team results in a product that is approvable by global regulators but is also differentiated from the competition in some way and also is to ensure that the company's activities, from non-clinical research through to advertising and promotion, are conducted in accordance with the regulations and guidelines established by regulatory authorities. The lecture started around 9:30 am and ended around 4:00 PM. The lecture was received with admiration by the students and they also found the slides appropriate. The event ended with honorarium to the guests and vote of thanks.</p>

## Activity Report

Name of the Activity	Pharmacy Analytical Aided	
Type of Activity	Add on /Certificate program	
Date and Time of Activity	08/02/2021 to 13/02/2021	09.30 am to 04.00 pm
Details of Participants	69	
Organizing Dept./Support System	Pharmacy	
Resource Person	Dr. Ampati Srinivas	
Description	<p>The growth in advancement and up-gradation of technology in machinery has led to manufacture all kinds of Pharmaceutical Machinery in India. As low technology offerings have been faster in the initial stage, the Indian machinery today is considered as one of the value-added engineering's with the integration of new technologies. More than 350 facilities in India's pharmaceutical-machine manufacturing industry are present. The Indian pharmaceutical machinery industry is currently catering to the segments of tableting and capsulation, powder processing, material handling, R&amp;D equipment and instrumentation, coating, bulk drug plant installation etc. The SME sector facilitates around 800 pharmaceutical machine manufacturing and allied utility service units. Majority of these units undertake the supply of custom-made machineries using the location advantage of buyers and job works. The lecture started around 9:30 am and ended around 4:00 PM. The lecture was received with admiration by the students and they also found the slides appropriate. The event ended with honorarium to the guests and vote of thanks.</p>
